

## BELLY BEYOND HAS ARRIVED!

Mothers Day saw the birth of Belly Beyond, a brand new online store and gift delivery service specialising in quality products for pregnancy, birth, baby and beyond. Combining their 12 years parenting experience, co-owners Heidi and Louisa spent over a year painstakingly researching and sourcing the perfect products before designing the innovative and unique essentials packs that Belly Beyond offers.

"Heidi and I felt there was a huge gap in the market for a one-stop online store providing a therapeutic focus on mums and babies, instead of pretty but ultimately useless flowers and shower gels, says Louisa. "We believe that Belly Beyond offers the perfect outlet for those looking to buy a quality gift that will both surprise and delight."

Essentials Packs are available for mum, dad, big brother or sister and even your soon-to-leave-office colleague, each containing a range of items hand picked by Louisa and Heidi. Those just looking to buy a small gift have not been forgotten either. Some of the company's most popular products are also available as stand-alone items: nappy bags from gr8x, Dulce & Zoet baby slings, breastfeeding equipment and much more can all be purchased through the Belly Beyond website and delivered straight to your door. Belly Beyond provides the perfect excuse to pamper those involved with the big day - and who could argue they don't deserve it!
